

Diabetic Food List Choices (Exchanges) for Recipes in Naturally Nutritious

Listed below are the Diabetic Food List Choices (Exchanges) for the recipes in Washington State Dairy Council's recipe book, *Naturally Nutritious: Everyday Family Meals*. Before you use the following information, please note:

This diabetic food list (exchange) information was calculated according to guidelines in the booklet, *Choose Your Foods: Exchange Lists for Diabetes*, published by the American Diabetes Association and the American Dietetic Association, 2008. These are only estimates; nutrient content may vary from product to product. For more information check product labels of the ingredients you use in the recipes and contact your physician or a diabetes educator if you have questions about how to fit these recipes into your diet.

"Optional" ingredients and "variations" are not included in the nutritional analyses or diabetic exchanges.

When a range is given for the amount of an ingredient, the first amount was used to calculate the nutritional analysis and diabetic food list serving. When two choices for an ingredient are listed, the first choice was used. For example, the recipe "Tossed Greens with Frico" calls for 1/4 cup to 1/3 cup fat-free or low-fat vinaigrette; therefore, in the analysis, 1/4 cup fat-free vinaigrette was used in the calculations.

Nutrient content for each recipe can be found in *Naturally Nutritious*. Grams of carbohydrate per serving are provided below for your convenience.

For general information about diabetes call the American Diabetes Association (1.800.342.2383) or visit www.diabetes.org. For a referral to a Registered Dietitian in your area, visit the American Dietetic Association's web site at www.eatright.org.

RECIPE	PAGE #	STARCH	FRUIT	FAT-FREE, LOW-FAT MILK	VEGETABLES (NON- STARCHY)	LEAN MEAT	MEDIUM- FAT MEAT	HIGH-FAT MEAT	SWEETS, DESSERTS, OTHER CARBO- HYDRATES	FAT	NOTE	CARBO HYDRATE (grams)
